

RICE WHITENER

Experience you can depend upon
Quality you can trust

INDIAN FOUNDRY WORKS

IFW Whitener WH-2.5 is designed to fulfill the needs of Rice Milling, it is a perfect machine to give a sparkling shine to whole grain of Rice, It can be operated with less efforts getting Maximum Production.

In WH-2.5 The Rice is shined by the already readymade Six well balanced Abrasive wheel, Turning brown rice into sparkling white. By the grace of overhead screw worm.

Input shine can be obtained by adjusting the screen through weight at output.

A Suction blower fitted before bran cyclone Which

cools the machine and Separates the Bran by suction process and collecting bran into Cyclone.

Operator can Also take care and monitor electrical consumption with Ammeter and negative pressure vacuum gauge fitted on the machine.

- ◆ Less Breakage of Rice.
- ◆ Higher Production.
- ◆ Rigid an monocoque body.
- ◆ Min. Space Requirement.
- ◆ Less Maintenance.

Model	Capacity (in kgs.)	Power Required H.P.
WH-2.5	2500	25
WH-4.0	4000	50

Due to continuous engineering improvements design & specifications are subject to change. Pictures shown in this folder are representative and not the entire range.
